

PROFESSIONAL SUMMARY

B.Tech Computer Science student at **VIT Bhopal University** with hands-on experience building full-stack, real-time, multiplayer, and AI-integrated applications using **React.js**, **Node.js**, **Express.js**, **PostgreSQL**, **Redis**, **Socket.io**, **OpenAI API**, and **Google Gemini API**. Skilled in REST APIs, WebSockets, authentication, transactional workflows, database design, and CRUD systems, with a strong foundation in C++ and Data Structures & Algorithms.

TECHNICAL SKILLS

Languages	: C++, Python, JavaScript, Data Structures & Algorithms
Frontend	: React.js, HTML5, CSS3, EJS, Tailwind CSS, Bootstrap, Recharts
Backend	: Node.js, Express.js, REST APIs, Socket.io, WebSockets, Axios
Databases	: PostgreSQL, SQL, Redis, Database Design, Transactions, CRUD
AI & Auth	: OpenAI API, Google Gemini API, Passport.js, Google OAuth 2.0, bcrypt
Tools	: Git, GitHub, VS Code, DataGrip, npm, nodemon

PROJECTS

AI Seller Sathi	Node.js, Express.js, EJS, PostgreSQL, Google Gemini API	AI-Powered Seller Assistant
- Engineered an AI-powered assistant generating 5 content types (titles, descriptions, keywords, FAQs, social captions) across 3 languages – English, Hindi, and Hinglish – via the Google Gemini API - Added a PostgreSQL-backed CRUD dashboard for sellers to manage and edit around 50+ generated listings - Designed around 15+ prompt templates and API request logic to maintain tone and formatting consistency across all 3 supported languages		
NexusOS	React.js, Node.js, Express.js, Tailwind CSS, OpenAI API, PostgreSQL	AI-Powered Productivity & Task Management
- Developed a Kanban-based productivity workspace with Brain Dump notes, 6+ customizable themes, and productivity analytics - Integrated the OpenAI API to convert unstructured notes into categorized tasks, tracking completion rates across around 30+ tasks per board - Built a drag-and-drop task board supporting approx 8 configurable columns with real-time completion metrics		
SpellForge Tactics	Node.js, Express.js, PostgreSQL, Socket.io, EJS, Tailwind CSS	1v1 Elemental Card Warfare
- Engineered low-latency one-on-one (2-player) multiplayer battles with live matchmaking and server-authoritative card, mana, and shield logic - Optimized leaderboard retrieval using indexed PostgreSQL queries, supporting around 20 concurrent matches - Built a Socket.io-based real-time synchronization layer keeping matchmaking and battle state consistent across around 15 active sessions		
Apex Exchange	React.js, Node.js, Express.js, PostgreSQL, Redis, Socket.io, Recharts	Galactic Commodity Market Simulator
- Architected a real-time market simulator with stochastic pricing and WebSocket feeds powering live interactive Recharts visualizations across 4+ market metrics - Implemented Redis Sorted Sets for O(log N) net-worth rankings and transactional row-level locking for atomic buy/short trades among around 18+ active traders - Modeled stochastic price fluctuations updating around 12 tradable commodity assets in real time		

EXPERIENCE

Data Analyst Associate Intern	Jul 2025 – Aug 2025
Excelerate	Remote
- Cleaned and restructured data across around 5+ source tables using PostgreSQL queries to prepare it for analysis - Created approx 4+ interactive Power BI dashboards to surface actionable trends from the cleaned data - Translated findings into structured stakeholder reports over the 4-week internship period	
PR and Outreach Member	Dec 2024 – Sep 2025
Software Development Club, VIT Bhopal	India
- Supported outreach and communication for club-run software development initiatives across around 6+ technical events - Coordinated logistics for around 10+ workshops alongside the core team - Contributed to planning and execution of club events, helping engage around 100+ members	

EDUCATION

VIT Bhopal University	Aug 2023 – May 2027
B.Tech in Computer Science	

CERTIFICATIONS

- Google: The Bits and Bytes of Computer Networking (Aug 2025) - Microsoft & LinkedIn: Career Skills in Software Development (May 2025) - NPTEL: Introduction to Machine Learning (May 2025), Marketing Analytics (May 2026) - freeCodeCamp: Responsive Web Design (Feb 2026)	
---	--

ACHIEVEMENTS

LeetCode Knight

LANGUAGES

- English – Proficient - Hindi – Native
